

# Dr Camilo Calderon

Economist · Educator · Digital Champion

United Kingdom · cc907@cam.ac.uk · LinkedIn: dr-camilo-calderon-morales-144ba595 · GitHub: calderon777 · Portfolio: camilo-digital-portfolio.ai.studio

## PROFILE

PhD-qualified applied economist and academic leader. Senior Lecturer in Economics, Student Experience Director and Digital Champion for the School of Policy & Global Affairs at City St George's, University of London; Senior Teaching Associate at the University of Cambridge. Builds reproducible analytical workflows in R and Python, applies econometric and AI-assisted methods with honest evaluation, and translates complex evidence into clear operating and investment decisions. Current work spans digital education infrastructure, responsible AI in assessment, cyber resilience, energy and mobility, ESG and strategic decision support.

## SELECTED DIGITAL & ANALYTICAL WORK

**Digital Champion portfolio — School of Policy & Global Affairs, City St George's** · LIVE · OPEN INFRASTRUCTURE

Interactive Quarto course infrastructure: a six-module applied econometrics lab handbook and TutorialX, an eight-topic monetary-economics tutorial system (readings, open questions, indicative answers, quizzes and tutor guides). Compiled by GitHub Actions to GitHub Pages, embedded in the VLE, WCAG 2.1 AA, serving 500+ students; five colleagues onboarded to the workflow; ≈95% below commercial platform cost.

**AI marking, evaluated properly** · PROTOCOL · RESPONSIBLE AI

Formal crossover protocol comparing manual and AI-assisted marking across 200 scripts, with marker recruitment and institutional review; complements ScriptGradeAgent, a local-first, privacy-preserving, auditable assessment prototype (Python, local LLMs, Streamlit).

**Cyber Macro Impact Pilot** · PUBLIC · REPRODUCIBLE ANALYTICS

Country-year prototype testing how cyber readiness and incident intensity relate to productivity, employment, investment and GDP growth across 224 economies (2014–2025); traceable R/Quarto pipeline with harmonisation logs, two-way fixed-effects models and robustness tests.

**ESG & Financial Performance in REITs** · RESEARCH · FINANCIAL ANALYTICS

Empirical study of ESG scores, risk-adjusted returns and portfolio optimisation (Bloomberg, LSEG); working paper with F. Fuerst, University of Cambridge (2025).

**EV & Autonomous Mobility Research** · METHODS LEADERSHIP

Methods guidance and supervision across spatial EV-charging analysis, socioeconomic indicators, policy transfer and urban adoption.

## PROFESSIONAL EXPERIENCE

**Senior Lecturer in Economics · Digital Champion · Student Experience Director 2025 - Present**

City St George's, University of London — School of Policy & Global Affairs, Department of Economics

- Teaches macroeconomics and monetary economics at undergraduate and postgraduate level.
- Leads the School's Digital Champion agenda: a step change in digital teaching practice and research dissemination built on open, version-controlled, accessibility-first tooling.
- Directs student experience for Economics: NSS performance analytics (2020–2026), departmental student support handbook, and Moodle engagement dashboards.

- Prototypes AI-enabled teaching media, including an avatar-based ("digital twin") video production pipeline.

## Senior Teaching Associate in Land Economy

2016 - Present

University of Cambridge

- Supervises MPhil research in econometrics, applied macroeconomics, real-estate finance and quantitative methods; 600+ research projects supported.
- Delivers research-methods supervisions, PGR dissertation workshops and the PGR dissertation conference.

## Economics Subject Lead · Programme Leader · Senior Lecturer

2016 - 2025

De Montfort University

- Led BA/BSc/MSc Economics programmes; co-designed a school-wide plan embedding R, Python, Tableau and live market-data workflows across programmes serving 1,000+ students.
- Built capability in Bloomberg, econometrics and analytics for 60+ academic colleagues and 600+ students annually.
- Translated technical evidence into the investment case for an approximately GBP 800k GPU compute cluster and Bloomberg-suite upgrade.
- Founded and chaired the DMU Investment Club; managed the Mattioli Woods PLC enterprise partnership; Principal Investigator on funded food-bank research.

## Lecturer & PhD Researcher

2011 - 2016

Bournemouth University

- Modelled FX market microstructure and financial risk using high-frequency data, GARCH-family and Pooled Mean Group methods; taught macroeconomics and econometrics.

## Director of Finance, Real Estate & Law

2004 - 2010

REIT · Bogotá, Colombia

- Led financial strategy, risk management and international real-estate portfolios exceeding USD 10m across Colombia and the United States.

## EDUCATION & CERTIFICATIONS

**PhD in Financial Economics** — Bournemouth University (2016)

**Certifications:** Bloomberg Market Concepts · Refinitiv/Eikon · Python data science · GDPR

**MA in Administration** (meritorious dissertation) — National University of Colombia (2009)

**Languages:** English and Spanish (fluent)

**Postgraduate specialisms in Finance and Capital Markets** — Universidad del Rosario (2011)
